“Every day I see how positively clients react to the Moody's Tax Law experience, service and people. It's why I have been here since day one. This team does good work.”

Every business would be so fortunate to have a Lynda Hunt on their team. She is the gear train, and she is the energy that keeps the whole Moody's system moving smoothly. Lynda has a unique combination of leadership, humanity, discretion and business acumen that makes her invaluable to the Moody's team and clients alike. It also works in our best interest that she ups the fashion game of our office (you will always win points with her by noticing her shoes!).
